Report on review of condensed consolidated interim financial statements

**To the Board of Directors of Al Buhaira National
Insurance Company P.S.C. and its subsidiary**

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Al Buhaira National Insurance Company P.S.C. (the "Company") and its subsidiary (the "Group") as at 30 September 2020, and the related condensed consolidated interim statement of income, and condensed consolidated interim statement of comprehensive income for the nine-months period then ended, and the condensed consolidated interim statement of changes in equity and condensed consolidated interim statement of cash flows for the nine-months period then ended and explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34.

Al Buhaira National Insurance Company P.S.C. and its Subsidiary

Notes to the condensed consolidated interim financial statements For the nine-months period ended 30 September 2020

1. General information

Al Buhaira National Insurance Company P.S.C (the "Company") is incorporated as a public shareholding company by an Emiri Decree issued by His Highness, The Ruler of Sharjah on 16 May 1978. The Company is subject to the regulations of UAE Federal Law No. 6 of 2007, concerning the formation of Insurance Authority of U.A.E. and is registered in the Insurance Companies register of Insurance Authority of U.A.E. under registration Number 15. The "Group" is comprised of the Company and its subsidiary (Note 3). The address of the Company's registered corporate office is P.O Box 6000, Sharjah, United Arab Emirates.

The principal activity of the Company is the writing of insurance of all types – other than savings and accumulation of funds. The Company operates through its head office in Sharjah and has branches in Dubai, Abu Dhabi, Al Ain, Khorfakkan, Fujairah and Ajman.

2. Application of new and revised International Financial Reporting Standards ("IFRS")

There are no new and revised IFRS that has a material impact for the Group during the period.

New and revised IFRS not yet effective

The Group has not yet applied the following new and revised IFRSs that have been issued but are not yet effective:

- Amendments regarding the definition of material
- Amendments to clarify the definition of a business
- Interest rate benchmark reform
- IFRS 17: Insurance Contracts

These amendments, except for IFRS 17 do not have a significant impact on these condensed consolidated interim financial statements and therefore the disclosures have not been made. Management anticipates that IFRS 17 will be adopted in the Group's consolidated financial statements for the annual period beginning 1 January 2023. The application of IFRS 17 may have significant impact on amounts reported and disclosures made in the Group's consolidated financial statements in respect of its insurance contracts. However, it is not practicable to provide a reasonable estimate of the effects of the application of this standard until the Group performs a detailed review. Management is in the process of performing a detailed assessment as required by the Insurance Authority on implementation of IFRS 17.

3. Summary of significant accounting policies

Basis of preparation

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard (IAS) No. 34, "*Interim Financial Reporting*" and also comply with the applicable requirements of the laws in the U.A.E.

The Group is in process of aligning the operations with the requirement of the regulations relating to investment operations and meeting solvency requirements.

The condensed consolidated interim financial statements are presented in U.A.E. Dirhams (AED) since that is the currency in which the majority of the Group's transactions are denominated.

These condensed consolidated interim financial statements have been prepared on the historical cost basis, except for the revaluation of financial instruments and investment properties.

The accounting policies, presentation and methods in these condensed consolidated interim financial statements are consistent with those used in the audited consolidated financial statements for the year ended 31 December 2019.

Al Buhaira National Insurance Company P.S.C. and its Subsidiary

Notes to the condensed consolidated interim financial statements (continued) For the nine-months period ended 30 September 2020

3. Summary of significant accounting policies (continued)

Basis of preparation (continued)

These condensed consolidated interim financial statements do not include all the information required for full annual consolidated financial statements and should be read in conjunction with the Group's consolidated audited annual financial statements as at and for the year ended 31 December 2019. In addition, results for the nine-months period ended 30 September 2020 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2020.

Property and equipment

Property and equipment are carried at historical cost less accumulated depreciation and accumulated impairment losses. Subsequent expenditure is capitalized only when it is probable that future economic benefits associated with the expenditure will flow to the Group. Ongoing repairs and maintenance are charged to the consolidated income statement during the financial period they are incurred.

The asset's residual values, useful lives and method of depreciation applied are reviewed and adjusted, if appropriate, at each financial year end and adjusted prospectively, if appropriate. Impairment reviews are performed when there are indicators that the carrying value may not be recoverable. Impairment losses are recognized in the consolidated statement of income as an expense.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the consolidated statement of income in the period the asset is derecognized.

Land is stated at its cost and is not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their cost or revalued amounts to their residual values over their estimated useful lives, as follows:

	<u>Years</u>
Residential villa	15
Office fixture and fittings	10
Computer equipment	5
Furniture and equipment	5
Right of use	Lease term

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties are measured initially at cost, including transaction costs. Cost includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met; and excludes the cost of day to day servicing of an investment property. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the reporting date. Gains or losses arising from changes in the fair value of investment properties are included in the profit or loss in the period in which they arise.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the profit or loss in the period of retirement or disposal.

Transfer is made to or from investment property only when there is a change in use evidenced by the end of owner-occupation, commencement of an operating lease to another party. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of the change in use.

Fair value is determined by open market values based on valuations performed by independent valuator.

Al Buhaira National Insurance Company P.S.C. and its Subsidiary

Notes to the condensed consolidated interim financial statements (continued) For the nine-months period ended 30 September 2020

3. Summary of significant accounting policies (continued)

Financial assets at fair value through other comprehensive income (FVTOCI)

At initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading.

Investments in equity and debts instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in the cumulative changes in fair value reserve. Where the asset is disposed of, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not transferred to income statement, but is reclassified to retained earnings.

The Group has designated all investments in equity instruments that are not held for trading as at FVTOCI.

Dividend income

Dividend income on investments in equity instruments is recognized in profit or loss when the Group's right to receive the dividend is established.

Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on the following financial instruments that are not measured at FVTPL:

- financial assets that are debt instruments;
- financial guarantee contracts issued; and
- loan commitments issued.
- no impairment loss is recognized on equity investments.

The Group measures loss allowances at an amount equal to lifetime ECL, except for those financial instruments on which credit risk has not increased significantly since their initial recognition, in which case 12-month ECL are measured.

12-month ECL are the portion of ECL that result from default events on a financial instrument that are possible within the 12 months after reporting date.

Basis of consolidation

The condensed consolidated interim financial statements of Al Buhaira National Insurance Company P.S.C. and its subsidiary (the "Group") incorporate the financial statements of the Company and the entity controlled by the Company (its subsidiary).

Control is achieved when the Group:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally.

Al Buhaira National Insurance Company P.S.C. and its Subsidiary

Notes to the condensed consolidated interim financial statements (continued) For the nine-months period ended 30 September 2020

3. Summary of significant accounting policies (continued)

Basis of consolidation (continued)

The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the condensed consolidated interim income statement and condensed consolidated interim statement of other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Group and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Details of the Company's subsidiary as at 30 September 2020 and 31 December 2019 are as below:

Name of subsidiary	Place of incorporation and operation	Proportion of ownership interest and voting power held	Principal activity
Al Buhaira Economic Investment Establishment	Sharjah, UAE	100%	Investing in economic projects

4. Property and equipment

- Property and equipment additions during the current period amounted to AED 748,721 (Nine-months period ended 30 September 2019: AED 638,986).
- Depreciation charges for the current period amounted to AED 2,308,915 (Nine-months period ended 30 September 2019: AED 651,899).
- All the property and equipment are located in U.A.E.

5. Investment properties

Investment properties with a fair value of AED 888 million (31 December 2019: AED 888 million) were mortgaged to a bank towards credit facilities granted to the Group.

The fair value of the Group's investment properties as at 31 December 2019 were arrived at on the basis of valuations carried by independent valuers who were not related to the Group and have appropriate qualification and recent market experience in the valuation of properties in the United Arab Emirates.

Al Buhaira National Insurance Company P.S.C. and its Subsidiary

Notes to the condensed consolidated interim financial statements (continued) For the nine-months period ended 30 September 2020

5. Investment properties (continued)

The fair value of land was determined based on an acceptable approach that reflects recent transaction prices for similar properties. The fair value of buildings was determined based on using the investment method. In estimating the fair value of the properties, the highest and best use of the properties is their current use.

Management estimates that there has been no change in the fair value of the investment properties during the nine-months period ended 30 September 2020.

The rental proceeds from Al Khan, Al Nahda Tower, and Al Buhairah Corniche Tower are assigned to a bank against credit facilities granted to the Group.

Investment properties are classified as Level 3 in fair value hierarchy as at 30 September 2020 (31 December 2019: Level 3).

17. Segment information

For management purposes, the Group is organized into three business segments: life assurance, general insurance and investments.

The general insurance segment incorporates all classes of general insurance including fire, marine, medical, motor, general and others. The life insurance segment includes group life insurance.

Investments segment comprises investment in equity securities and investment properties.

These segments are the basis on which the Group reports its primary segment information to the Chief Operating Decision maker.

The accounting policies of the reportable segments are the same as the Group's accounting policies described in Note 3 to the annual audited consolidated financial statements of the Group.

21. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, differences can arise between book values and the fair value estimates. Underlying the definition of fair value is the presumption that the Group is a going concern without any intention or requirement to materially curtail the scale of its operation or to undertake a transaction on adverse terms.

Fair value of financial instruments carried at amortised cost

Management considers that the carrying amounts of financial assets and financial liabilities recognised at amortised cost in the condensed consolidated interim financial statements approximate their fair values.

Valuation techniques and assumptions applied for the purposes of measuring fair value

The fair values of financial and non-financial assets and financial liabilities are determined using similar valuation techniques and assumptions as used in the audited annual consolidated financial statements for the year ended 31 December 2019.

Fair value of the Group's financial assets that are measured at fair value on recurring basis

Some of the Group's financial assets are measured at fair value at the end of the reporting period. The following table gives information about how the fair values of these financial assets are determined:

Financial assets	Fair value as at 30 September 2020 (Unaudited) AED	Fair value as at 31 December 2019 (Audited) AED	Fair value hierarchy	Valuation techniques and key inputs	Significant unobservable input	Relationship of unobservable inputs to fair value

21. Fair value measurement (continued)

Fair value measurements recognised in the condensed consolidated interim statement of financial position

The following table provides an analysis of financial assets and non-financial assets that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

23. Significant event – (COVID-19)

During the nine-months period ended 30 September 2020, there was an outbreak of a global pandemic (COVID-19), causing significant disruption to economies & businesses across the globe including the Group. As this is evolving, we do not consider it is practicable to provide an estimate of the potential impact of this outbreak on the Group.

The impact of this outbreak on the macroeconomic forecasts did not have a significant impact in the Group's IFRS 9 estimates of expected credit loss provisions at September 30, 2020. Management will continue to monitor the situation and assess the impact of this outbreak throughout the year.

24. Approval of condensed consolidated interim financial statements

The condensed consolidated interim financial statements were approved by the Board of Directors and authorized for issue on 12 November 2020.
